KENZAN

Digital Consulting + Software Engineering

Zero-to-Canary with Spinnaker
Part V: Review

Transforming businesses that use technology
into technology organizations that do business.

KENZAN
An Amdocs Company

Review

We covered a lot in this quarter day

Thoughts to walk away with:

Do I have enough Observability in my Enterprise?

Can I Canary?

Can I Multi-cloud Orchestrate?

- We Discussed Spinnaker
  - How it enables enterprise orchestration
- We briefly talked about Enterprise Observability
  - Relationship between Observability and Canary
- Canary
  - Defined Automated Canary Analysis
  - Created a pipeline in Spinnaker with Canary Capabilities

KENZAN

amdocs

Thank You!

https://github.com/kenzanlabs/capstan

Delivering customized, cloud-native, end-to-end technology solutions that drive business.

An Amdocs Company since 2017, Kenzan was founded in 2004. We have offices in Providence (RI), New York (NY), Denver (CO), Los Angeles (CA) and Guadalajara, MX.
